

From railcar deliveries to utilization forecasts – one database, complete rail equipment intelligence.

Key Data Categories

- U.S. Freight by Mode →
- N.A. Rail Carloadings →
- N.A. Rail Tonnage →
- N.A. Rail Tonmiles →
- Railcar Market Indicators →
- Railcar Fleet Population →
- Economic Drivers →
- Industrial Production →
- Railcar EDD →

What's Included

- Total tonmiles, modal share data for Rail, Truck, Pipeline, Water
- Carloadings by car type & STCC commodity codes
- Tons by car type and commodity classification
- Tonmiles by car type and commodity classification
- Deliveries, Orders, Backlogs & Ratios
- Fleet size by car type (Box, Covered Hopper, Gondola, etc.)
- Real GDP, Consumer Expenditures, Business Investment
- IP indices for key sectors (Metals, Fabricated, Lumber, etc.)
- Economically Derived Demand forecasts

Car Types Tracked

- Box Cars
- Open-Top Hoppers
- Flat Cars
- Refrigerated Cars
- Covered Hoppers
- Gondolas
- Tank Cars

Ideal For

- Rail Carriers & Operators
- Railcar Manufacturers
- Railcar Leasing Companies
- Shippers & Logistics Companies
- Financial Analysts & Investors
- Government & Policy Makers
- Consulting Firms
- Academic Researchers

Key Features

- ✓ 30+ years of historical data (1992-present)
- ✓ 5-year forecast horizon (through 2030)
- ✓ Monthly, Quarterly, and Annual data frequencies
- ✓ Seasonally adjusted figures
- ✓ Commodity-level detail by STCC codes
- ✓ Updated regularly with latest government & industry data
