

Comprehensive U.S. Trucking Market Intelligence –
Monthly, Quarterly & Annual Data

Key Data Categories

- Truck Utilization →
- Truck Loadings →
- Loadings Index →
- Truck Rates →
- Driver Labor →
- Economic Indicators →
- Carrier Financials →
- Fuel/Energy →
- Trucking Conditions Index →
- Length of Haul →
- Industry Data →

What's Included

- Active fleet utilization rates
- Volume by commodity type, trailer type & tonnage
- Indexed performance metrics (2010 baseline)
- Spot & contract rates by equipment type (TL & LTL)
- Labor index & driver market pressure
- GDP, industrial production, consumer & business metrics
- Public carrier revenues, costs & profitability
- National diesel fuel prices
- Market health composite with 5 key components
- Loadings segmented by distance (short to super long-haul)
- Class 8 orders, port activity, carrier population

Features

Historical Data: 25+ Years of Historical Data (2000-Present)

Forecasts: Multi-Year Forecasts (Through 2028)

Granularity: Monthly, Quarterly & Annual Data Granularity

Adjustments: Seasonally Adjusted (SA) Metrics

Coverage: Comprehensive: Utilization • Loadings • Rates • Labor • Economics

Equipment Breakdown: Dry Van • Reefer • Flatbed • Specialized • Tank • Bulk

Commodity Detail: 6 Major Commodity Categories

Proprietary Index: Trucking Conditions Index (TCI) with 5 Components

Rate Intelligence: Spot & Contract Rates by Equipment Type

Economic Context: GDP, Industrial Production & Employment Data

Carrier Insights: Public Carrier Financials & Market Population
